Once the meter box is in place, and the system is operational, it will be my responsibility to connect my house to the meter box. I further understand that there will be a minimum monthly charge in addition to a charge for actual water usage. Once the system is operational, I understand that I will be billed the minimum monthly charge (currently \$15.00), even if I am not connected and have no water usage. I also understand that the District needs all Water Users Agreements by the end of the early sign up period to verify an accurate customer base and finalize water line locations.

I understand that executing this Water Users Agreement is a binding contract, and that I will be billed monthly once the system is operational, even if my property is not connected to the water system, and I use no water.
